Certain restrictions, precautions, and safety procedures apply to your vehicle. Please read your Owner’s Manual for complete instructions.
Refer to your Owner’s Manual to learn about the information being relayed by the lights, gauges and indicators on the instrument cluster.

See In Brief in your Owner’s Manual.
**REMOTE KEYLESS ENTRY TRANSMITTER (KEY FOB)***

**Lock**
Press to lock all doors and tailgate.

**Unlock**
Press to unlock the driver’s door. Press again to unlock all doors and tailgate. Press and hold until the windows are fully open.
Press and hold the Lock/Unlock button for 1 second to fold/unfold the power mirrors.

**Power Tailgate**
Press twice to lower the tailgate. Press once and then press again and hold until the tailgate is fully closed.

**Vehicle Locator/Panic Alarm**
Press and release to locate your vehicle. Press and hold to activate the alarm. Press again to cancel the alarm.

**Remote Vehicle Start**
Press and release the Lock button and then press and hold the button until the turn signal lamps flash to start the engine from outside the vehicle. After entering the vehicle, turn on the ignition. To cancel a remote start, press and hold the button until the parking lamps turn off.

See Keys, Doors and Windows in your Owner’s Manual.

---

**KEYLESS ACCESS SYSTEM**

The Keyless Access System enables operation of the doors and tailgate without removing the Remote Keyless Entry (RKE) transmitter from your pocket or purse. The transmitter must be within 3 feet of the tailgate or the door being unlocked.

**KEYLESS UNLOCKING**
With the transmitter within range:
- Press the button on the driver’s door handle to unlock the driver’s door; press it again within 5 seconds to unlock all doors and tailgate.
- Press the button on a passenger door handle to unlock all doors and tailgate.
- Press the button on the tailgate to lower the standard tailgate.

**KEYLESS LOCKING**
With the ignition off, the transmitter removed from the vehicle, and all doors closed:
- Press the button on any door handle to lock all doors and tailgate immediately.
- If Passive Locking is turned on, all doors will lock automatically after a short delay.

*Note: To change the door lock and unlock settings, go to Settings > Vehicle > Remote Lock, Unlock, Start.*

See Keys, Doors and Windows in your Owner’s Manual.

---

**KEYED IGNITION SYSTEM (IF EQUIPPED)**

**STARTING THE VEHICLE**
- With the vehicle in Park or Neutral, rotate the key clockwise to the Start position.

**TURNING OFF THE VEHICLE**
- Shift to Park.
- Push the key all the way in (1) and then rotate the key counterclockwise to the Lock/Off position (2).

See Driving and Operating in your Owner’s Manual.
KEYLESS (PUSHBUTTON) START

The Remote Keyless Entry transmitter must be in the vehicle to turn on the ignition.

STARTING THE ENGINE/ON

» With the transmission in Park or Neutral, press the brake pedal and then press the ENGINE START/STOP button to start the engine. The green button indicator will illuminate.

Note: If the Remote Keyless Entry transmitter battery is weak, place the transmitter in the pocket in the center storage compartment (under the bench seat) or center console cupholders (bucket seats) to enable the engine to start. Replace the transmitter battery as soon as possible.

STOPPING THE ENGINE/OFF

» Shift to Park and press the ENGINE START/STOP button to turn off the engine. The green button indicator will turn off.

ACCESSORY MODE

» With the engine off and the brake pedal not depressed, press the ENGINE START/STOP button to place the ignition in accessory mode to operate the radio, windows and other accessories with the engine off. The amber button indicator will illuminate.

See Driving and Operating in your Owner’s Manual.

AUTO ENGINE STOP/START OPERATION

The fuel-saving engine stop/start system automatically stops and restarts the engine to help conserve fuel. The system may turn off the engine, referred to as an Auto Stop, when the brake pedal is pressed and the vehicle is at a complete stop, if operating conditions are met. In Auto Stop mode, the tachometer gauge will read AUTO STOP. The audio system, climate controls and other accessories will continue to operate. When the brake pedal is released or the accelerator pedal is pressed, the engine will restart. After parking the vehicle and turning off the engine, the tachometer gauge will read OFF.

The engine may remain running or restart when the vehicle is stopped if:

• A minimum vehicle speed is not reached.
• The engine or transmission is not at the required operating temperature.
• The outside temperature is not in the required operating range.
• The shift lever is in any gear other than Drive (D).
• The battery charge is low.
• The climate control system requires the engine to run based on the current settings.
• The Auto Stop time is greater than 2 minutes.

AUTO ENGINE STOP/START DISABLE

» Press the button on the center of the instrument panel when the engine is running to disable the auto engine stop/start system. The button indicator will turn off.

The auto engine stop/start system is enabled each time the vehicle is started.

See Driving and Operating in your Owner’s Manual.
SEAT ADJUSTMENTS

A. Seat Cushion Adjustment
   Move the horizontal control to move the seat forward or rearward and to tilt, raise or lower the seat.

B. Seatback Adjustment
   Move the vertical control to recline or raise the seatback.

C. Lumbar Adjustment
   Move the rear control to adjust the lumbar support.

SET MEMORY POSITIONS

1. With the vehicle in Park, adjust the driver’s seat and power outside mirrors to the desired positions.
2. Press and release the SET button on the driver’s door. A beep will sound.
3. Immediately press and hold button 1 or 2 until two beeps sound. Use the button that matches the Driver Information Center welcome message indicating driver 1 or 2 (key fob 1 or 2).

To store a seat position for more clearance when exiting the vehicle, repeat these steps using the Exit button instead of button 1 or 2.

RECALL POSITIONS

► Press and hold button 1 or 2 or Exit until the set position is reached.

The memory/exit positions can be programmed to be recalled automatically when the ignition is turned on/off (for exit recall, the driver’s door must be opened).

► To set the automatic recall options, go to Settings > Vehicle > Seating Position > Set Entry Memory and Set Exit Memory.

See Seats and Restraints in your Owner’s Manual.

REAR SEAT STORAGE

Seatback storage is an ideal location for charge cords, tablets, flashlights or rain gear.

► Pull the tab to access the storage compartment in the outboard seatbacks.
► Lift up either side of the 60/40-split rear seat to access the storage areas under the seat.

**STEERING WHEEL ADJUSTMENT**

- With the vehicle parked, pull the lever under the steering column to adjust the steering wheel up or down and closer or farther away. Push up the lever to lock the steering wheel in place.

*See Instruments and Controls in your Owner’s Manual.*

---

**CLIMATE CONTROLS/VEHICLE CONTROLS**

- **AUTO** Driver’s Temp. Control/Automatic Operation
- **Defrost Mode/Rear Window-Heated Outside Mirror Defog**
- **Air Delivery Modes:** 
  - **Defog**
  - **Vent**
  - **Floor**
- **Fan Speed/On/Off**
- **Air Conditioning/Recirculation Mode**
- **SYNC** Passenger’s Temp. Control/Link passenger’s setting to driver’s setting

*Optional equipment*

*See Instruments and Controls in your Owner’s Manual.*

---

*Dual automatic climate controls* shown
The Driver Information Center (DIC) on the instrument cluster displays a variety of vehicle messages and system information.

**BASE DIC CONTROL**
- Use the trip odometer reset stem on the instrument cluster to access the DIC menu. Turn the stem to scroll through the menu. Press and hold the stem to reset an item.

**MIDLEVEL AND UPLEVEL DIC CONTROLS**
- Use the controls on the right side of the steering wheel to view the various menus.
  - Press the \(<\) or \(>\) button to move between the display zones.
  - Rotate the thumbwheel up or down to move through the menus.
  - Press the thumbwheel to open a menu, or to select or reset an item.

**SELECT INFO PAGES**
1. Use the controls to open the Options menu.
2. Scroll to Info Page Options. Press the thumbwheel to enter the menu.
3. Scroll through the list of items.
4. Press the thumbwheel to select or deselect an item to display in the Info menu.

**MULTI-COLOR HEAD-UP DISPLAY**
- The Head-Up Display (HUD) projects some operating information on the windshield. Temporary information, such as audio changes and navigation maneuvers, also may be displayed. The HUD controls are on the left side of the instrument panel.
  - Lift up or press down to adjust the position of the image. It cannot be adjusted side-to-side.
  - INFO
  - Press to select from four displays:
    - **Speed View** – Speedometer only
    - **Active Safety View** – Speedometer and driver assistance information
    - **Navigation View** – Speedometer and turn-by-turn navigation information
    - **Off-Road View** – Speedometer and off-road information
  - Lift up or press down to brighten or dim the display. Hold down to turn off the display.

The infotainment system uses a Bluetooth or USB connection to link to a compatible device, such as a smartphone or portable audio player/iPod®, and offers hands-free voice control. For assistance, contact Customer Assistance at 1-855-4-SUPPORT (1-855-478-7767) or visit my.chevrolet.com/learn.

**MANAGING HOME PAGE ICONS**

1. Press the **Home** button.
2. To enter edit mode, touch and hold the Home page icon to move.
3. Continue holding the icon and drag it to the desired position, and then release.

*See your Infotainment System Manual.*
INFOTAINMENT SYSTEM

STORING FAVORITES
Radio stations from all bands (AM, FM or SiriusXM*) can be stored in any order. The audio source options are on the left side of the page.

1. Display the desired radio station.
2. Select the desired page of favorite screen buttons.
3. Touch and hold one of the favorite screen buttons until a beep is heard.
4. Repeat the steps to store another favorite item.

Note: To change the number of favorites displayed, go to Settings > System > Favorites

NATURAL VOICE RECOGNITION
Control the music source and make phone calls hands-free (after pairing your Bluetooth-enabled phone) using the natural voice recognition system.

1. Press the Press to Talk button on the steering wheel.
2. The radio will play a prompt followed by a beep.
3. After the beep, say what you want it to do using natural speech. Examples: “Call Amanda” or “Tune FM 104.3.” Say “Help” for assistance.

APPS
In-vehicle apps — connecting to music, news, weather, travel information, sports, entertainment and more — are available for download to the infotainment system through the Apps icon on the Home page. Downloading and using the apps requires internet connectivity, and may require a data plan, accessed through the vehicle’s 4G LTE Wi-Fi hotspot, if active, or a mobile device hotspot. For more information, visit my.chevrolet.com/learn.

APPLE CARPLAY
Apple CarPlay capability is available through a compatible smartphone using the Apple CarPlay icon on the Home page of the infotainment system. No app is required.

1. Connect your compatible phone by plugging the Lightning cable into a USB data port. Use your device’s factory-provided Lightning cable. Aftermarket cables may not work.
2. The Apple CarPlay icon will illuminate. Touch the Apple CarPlay icon to have your apps displayed.

ANDROID AUTO
Android Auto capability is available through a compatible smartphone using the Android Auto icon on the Home page of the infotainment system.

1. Download the Android Auto app to your phone from the Google Play Store.
2. Connect your compatible phone by plugging the phone USB cable into a USB data port. Use your device’s factory-provided USB cable. Aftermarket cables may not work.
3. The Android Auto icon will illuminate. Touch the Android Auto icon to have your apps displayed.

See your Infotainment System Manual.
**BLUETOOTH® SYSTEM**

Refer to your Owner’s Manual for important information about using the Bluetooth system while driving. Before using a Bluetooth-enabled device in the vehicle, it must be paired with the in-vehicle Bluetooth system. The pairing process is disabled when the vehicle is moving. Not all devices will support all functions. Visit my.chevrolet.com/learn for more information.

**PAIR A PHONE**

1. To use voice recognition, press the **Press to Talk** button; after the beep, say “Pair phone”; or to use the infotainment screen, select the Phone icon > Phones > Pair Device or Search Device
2. Start the pairing process on your phone. From the phone’s Bluetooth settings, select the name shown on the infotainment screen.
3. Follow the pairing instructions.
4. When pairing is complete, the phone screen is displayed. Depending on the phone, your phone book may be downloaded automatically.

**SECONDARY PHONE**

A secondary phone can be paired to the Bluetooth system. The system connects to the phone that is set to First to Connect. The secondary phone can only receive calls.

- To set the first and secondary phones, go to Settings > System > Phones and select the Information icon.

See your Infotainment System Manual.

---

**AUDIO STEERING WHEEL CONTROLS**

**Press to Talk**

Press to answer an incoming call or to use natural voice recognition with the Bluetooth or OnStar system.

Press and hold to activate Bluetooth Speech Recognition (Siri or Voice Command) on a paired mobile phone.

**End Call/Mute**

Press to end or decline a call.
Press to mute/unmute the speakers.

**+ – Volume**

(behind right side of steering wheel)
Press the top or bottom button to adjust the volume.

**Next/Previous Favorite Station**

(behind left side of steering wheel)
Press the top or bottom button to go to the next or previous favorite radio station or track.

See your Infotainment System Manual.

* Optional equipment
**4G LTE WI-FI® HOTSPOT**

With the vehicle’s built-in Wi-Fi hotspot, up to 8 devices (smartphones, tablets and laptops) can be connected to high-speed internet using the 4G LTE signal.

- To retrieve the SSID and password for the hotspot, select the Wi-Fi icon on the Home page or go to Settings > Wi-Fi > Manage Wi-Fi Networks on the infotainment system.

For more information, call 1-855-478-7767 or visit my.chevrolet.com/learn.

See your Infotainment System Manual.

**WIRELESS CHARGING**

The Wireless Charging system for mobile devices is located at the front of the center console. To check device compatibility, visit my.chevrolet.com/learn. See your phone retailer for details on required phone accessories.

1. The vehicle must be on, or Retained Accessory Power must be active.
2. Remove all objects from the charging pad.
3. Place the device, face up, on the pad.
4. The charging symbol will appear on the infotainment screen when charging. If not charging, remove the device for 3 seconds, and rotate it 180 degrees.

**VEHICLE PERSONALIZATION**

Some vehicle features can be customized using the Settings menus and the infotainment screen icons. The Settings menus include System, Apps, and Vehicle.

1. Select Settings on the Home page.
2. Select the desired menu tab.
3. Select the desired feature and setting.
4. Press BACK to exit each menu.

**UNIVERSAL REMOTE SYSTEM**

The Universal Remote System on the overhead console enables your vehicle to control 3 different devices, ranging from garage doors and gates to home lighting. Go to www.homelink.com for detailed videos and instructions on how to program the Universal Remote System. For additional assistance, call 1-800-355-3515.

The Drive Mode Control automatically adjusts various vehicle control systems based on driving preferences, weather and road conditions. The modes are displayed on the Driver Information Center.

- Rotate the Drive Mode Control knob on the left side of the instrument panel to select the desired mode:
  - **Tour** – Use for normal driving
  - **Sport** – Use for enhanced responsiveness on paved roads
  - **Snow (2WD only)** – Use for enhanced traction during slippery conditions
  - **Off-Road (4WD only)** – Use for enhanced control on unpaved roads or trails at moderate speeds
  - **Terrain (4WD only)** – Use for enhanced control in low-speed off-road conditions. This mode provides greater control by automatically braking the vehicle when traversing various terrain or obstacles. Only available with single-speed transfer cases when in 4↓. Refer to Driver Mode Control in your Owner’s Manual.
  - **Tow/Haul** – Use to reduce shift cycling when towing or hauling heavy loads in stop and go traffic, rolling hills, or busy parking lots.

*See Driving and Operating in your Owner’s Manual.*

**FOUR-WHEEL DRIVE**

Use the four-wheel drive buttons on the left side of the instrument panel to shift into and out of four-wheel drive. The Driver Information Center displays the current status of the transfer case.

- **AUTO Auto Four-Wheel Drive High** – Use when traction conditions vary. Shift into this mode at any speed except when shifting from 4↓.
- **2↑ Two-Wheel Drive High** – Use for most streets and highways. Shift into this mode at any speed except when shifting from 4↓.
- **4↑ Four-Wheel Drive High** – Use when extra traction is needed or in most off-road driving. Shift into this mode at any speed except when shifting from 4↓.
- **4↓ Four-Wheel Drive Low** – Use when driving off-road in deep sand, mud or snow, or on steep hills. Shift into or out of this mode when the vehicle is stopped or moving less than 3 mph with the transmission in Neutral.
- **N Neutral** – Use when dolly or dinghy towing the vehicle behind an RV. Neutral is not available with the single speed transfer case. Refer to your Owner’s Manual for the shift procedure.

*Optional equipment*
SAFETY ALERT SEAT – The driver's seat pulses — left side, right side or simultaneously — to alert the driver of the direction of potential hazards.

- Audible alerts or seat pulsing alerts may be selected. To change the alert settings, go to Settings > Vehicle > Collision/Detection Systems > Alert Type.

LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT – While driving, the system displays a \( \times \) warning symbol on the left or right side mirror when a vehicle is detected in that side blind zone area or rapidly approaching that area. The warning symbol flashes if a turn signal is activated when a vehicle has been detected on the same side.

- To turn on or off, go to Settings > Vehicle > Collision/Detection Systems > Lane Change Alert.

FORWARD COLLISION ALERT – The \( \Rightarrow \) Vehicle Ahead Indicator is green when a vehicle is detected and is amber when following a vehicle ahead much too closely. When approaching a vehicle directly ahead too rapidly, a red alert flashes on the windshield and the Safety Alert Seat pulses or rapid beeps sound (if selected).

- Press the \( \Rightarrow \) Collision Alert button on the steering wheel to set the alert timing to Far, Medium, or Near.

FOLLOWING DISTANCE INDICATOR – The following distance to the vehicle ahead is indicated in seconds under the Info menu on the Driver Information Center. If no vehicle is detected ahead, dashes are displayed.

LOW-SPEED FORWARD AUTOMATIC BRAKING – In potential front-end imminent collision situations with detected vehicles, the brakes may be applied, if you haven’t already done so, to help reduce damage or avoid collisions at very low speeds.

- To set Forward Automatic Braking and Forward Collision Alert to Alert and Brake, Alert, or Off, go to Settings > Vehicle > Collision/Detection Systems > Forward Collision System.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING – The system may help you avoid collisions due to unintentional lane departures. The \( \swarrow \) Lane Keep Assist indicator is green if the system is available to assist. If the vehicle approaches a detected lane marking without using a turn signal in that direction, the system may assist by gently turning the steering wheel and displaying an amber \( \swarrow \).

If active driver steering is not detected, the amber \( \swarrow \) may flash and the Safety Alert Seat may pulse or beeps may sound (if selected) on the side of the departure direction as the lane marking is crossed. The Lane Keep Assist system does not continuously steer the vehicle; the driver needs to steer and be in complete control of the vehicle.

- To turn on or off, press the \( \swarrow \) Lane Keep Assist button on the center console.
**DRIVER ASSISTANCE SYSTEMS**

**FRONT PEDESTRIAN BRAKING** – During daytime driving, the system detects pedestrians directly ahead up to a distance of approximately 131 ft. and displays an amber indicator. When approaching a detected pedestrian too quickly, a red alert flashes on the windshield and the Safety Alert Seat pulses or rapid beeps sound (if selected). The system may prepare the brakes or automatically brake the vehicle.

► To set to Alert and Brake, Alert, or Off, go to Settings > Vehicle > Collision/Detection Systems > Front Pedestrian Detection.

**FRONT AND REAR PARK ASSIST** – During low-speed parking maneuvers, the system provides “distance to closest object” information on the Driver Information Center and the Safety Alert Seat pulses or a beep sounds (if selected). When an object is very close, the Safety Alert Seat pulses or 5 beeps sound (if selected).

**REAR CROSS TRAFFIC ALERT** – When in Reverse, the system warns of cross traffic coming in either direction by displaying a red alert on the infotainment screen and pulsing the left or right side of the Safety Alert Seat or sounding beeps (if selected).

► To turn only Rear Cross Traffic Alert on or off, go to Settings > Vehicle > Collision/Detection Systems > Rear Cross Traffic Alert.

► To turn Front and Rear Park Assist and Rear Cross Traffic Alert on or off, press the Park Assist button on the center console.

*See Driving and Operating in your Owner’s Manual.*

**REAR VISION CAMERA/SURROUND VISION**

**REAR VISION CAMERA**

When the vehicle is in Reverse below 8 mph, a view of the area behind the vehicle displays on the infotainment screen. Camera view buttons are at the bottom of the screen.

► Touch the Guidance Lines or Hitch Guidance button to change the guidelines.

► Touch the Hitch View button for a zoomed-in view of the hitch area.

**SURROUND VISION**

Rear, front or side camera views along with a view of the area surrounding the vehicle are displayed on the infotainment screen when the vehicle is in Reverse or Drive below 8 mph. Camera view buttons are at the bottom of the screen.

► Touch the Guidance Lines or Hitch Guidance button to change the guidelines.

► Touch the Hitch View button for a zoomed-in view of the hitch area.

► To check the trailer when in Drive above 8 mph, touch the Camera icon on the infotainment screen. Touch X to exit the view.

*See Driving and Operating in your Owner’s Manual.*
The rear camera mirror provides a wider, less obstructed field of view to assist when driving, changing lanes and checking traffic conditions.

A. **On/Off**
   Pull or push the lever at the bottom of the mirror to turn the video display on or off.

B. **Selection Control**
   Press and release the button to select the brightness, tilt or zoom feature.

C. **+/−**
   Press and release either button to adjust the selected view.

See Keys, Doors and Windows in your Owner’s Manual.

---

**LIGHTING**

**LAMP CONTROLS**
Rotate the knob to activate the exterior lamps.

- **Off/On**
- **AUTO**
  Automatically activates the exterior lamps depending on outside lighting conditions.

- **Parking Lamps**

- **Headlamps**

- **Fog Lamps**
  Press to turn the fog lamps on/off.

- **Instrument Panel Brightness**
  Press and hold the +/− buttons to adjust the instrument panel lighting.

- **Task Lighting**
  Press repeatedly to cycle through the outside mirror lamp options: both lamps on, left lamp on, right lamp on, both lamps off.

- **Cargo Lamp**
  With the vehicle in Park, press to turn the cargo box lamps and hitch lamp on/off. The button indicator illuminates when the lamps are on.

**INTELLIBEAM SYSTEM**

The IntelliBeam system automatically turns the high-beam headlamps on/off according to surrounding traffic when the lamp control is in the AUTO position and the system is activated, indicated by a green icon on the instrument cluster. A blue icon appears when the high-beam headlamps are on. The system is turned off if the high/low-beam changer or the flash-to-pass feature is used.

- **To turn the IntelliBeam system on or off, press the button on the end of the turn signal lever.**

*Note: IntelliBeam activates the high-beam headlamps only when driving over 25 mph.*

See Lighting in your Owner’s Manual.
WINDSHIELD WIPERS

Rotate the band on the lever to activate the wipers.

HI  Fast wipes
LO  Slow wipes

’intermittent wipes
Rotate the band up for more frequent wipes or down for less frequent wipes.

OFF
1x Single wipe

Wasser Fluid
Push the button to spray washer fluid on the windshield.

CRUISE CONTROL

SETTING CRUISE CONTROL
>
Press the On/Off button. The Cruise Control symbol will illuminate in white on the instrument cluster.
>
When traveling at the desired speed, rotate the thumbwheel down to set the speed. The symbol will illuminate in green on the instrument cluster.

ADJUSTING CRUISE CONTROL

+RES  Resume/Accelerate
Rotate the thumbwheel up to resume a set speed. When active, rotate the thumbwheel up to increase speed 1 mph; rotate and hold to continue increasing speed.

–SET  Set/Coast
When active, rotate the thumbwheel down to decrease speed 1 mph; rotate and hold to continue decreasing speed.

Cancel
Press the button, or press the brake pedal, to cancel Cruise Control without erasing the set speed from memory.
The set speed is erased when Cruise Control or the vehicle ignition is turned off.

See Driving and Operating in your Owner’s Manual.
HILL DESCENT CONTROL

Hill Descent Control sets and maintains vehicle speed from 1–14 mph while descending a steep incline in a forward or reverse gear.

1. Press the Hill Descent Control button on the center of the instrument panel. Vehicle speed must be below 31 mph to enable the system. The Hill Descent Control symbol will illuminate on the instrument cluster.

2. Increase or decrease speed by applying the accelerator or brake pedal or use the Cruise Control +/- buttons on the steering wheel. The adjusted speed becomes the new set speed. The symbol flashes when the system is actively applying the brakes to maintain vehicle speed.

See Driving and Operating in your Owner's Manual.

INTEGRATED TRAILER BRAKE CONTROL (ITBC)

The ITBC system can be used to adjust the amount of power output, or Trailer Gain, available to the trailer brakes. The control panel is located on the left side of the instrument panel. ITBC information is displayed on the Driver Information Center.

► Squeeze the control together (right side does not move) to manually apply the trailer brake.

► Adjust the Trailer Gain by pressing the +/- adjustment buttons on the control panel.

► The trailer app will remember your Trailer Gain adjustments for each trailer profile.

See Driving and Operating in your Owner's Manual.

TIRE PRESSURE MONITOR

The Low Tire Pressure warning light on the instrument cluster illuminates when one or more of the vehicle’s tires is significantly underinflated. Fill the tires to the proper tire pressures listed on the Tire and Loading Information label, located below the driver’s door latch. Current tire pressures can be viewed on the Driver Information Center.

The Tire Fill Alert provides visual and audible alerts to help when inflating a tire to the recommended tire pressure (does not apply to spare tire). When the recommended pressure is reached, the horn sounds and the turn signals change from flashing to solid.

Refer to your Owner’s Manual for information about normal monthly tire maintenance.

See Driving and Operating in your Owner’s Manual.
To apply the parking brake, press the Parking Brake button on the left side of the instrument panel. To release the parking brake, turn on the ignition, press the brake pedal, and then press the button.

See Driving and Operating in your Owner’s Manual.
**ROADSIDE ASSISTANCE**

1-800-CHEV-USA  1-800-243-8872  
TTY Users: 1-888-889-2438

As the owner of a new Chevrolet, you are automatically enrolled in the Chevrolet Roadside Assistance program for up to 5 years/100,000 miles, whichever occurs first, at no expense to you. Chevrolet’s Roadside Assistance toll-free number is staffed by a team of trained advisors who are available 24 hours a day, 365 days a year, to contact a service provider for light services (fuel delivery, jump-starts, flat tire and lock-outs) or make arrangements to tow your vehicle to the nearest Chevrolet dealer for any repairs.

**OnStar® Roadside Assistance**

If you have a current OnStar Safety & Security plan, push the blue OnStar button or red Emergency button to get the help you need. An OnStar advisor will use GPS technology to pinpoint your vehicle location and contact the nearest service provider.

To learn more about OnStar services, push the blue OnStar button, visit onstar.com, call 1-888-4-ONSTAR (1-888-466-7827), or refer to your Owner’s Manual.

**MYCHEVROLET MOBILE APP**

Download the myChevrolet app to your compatible smartphone (or device) and, if your vehicle is properly equipped, you can start or turn off your engine, lock or unlock your doors, view key diagnostic information, set parking information and more.

The app is available on select Apple and Android devices. Service availability, features and functionality vary by vehicle, device and data plan. Device data connection required. Visit onstar.com for more details. Download the mobile app from your compatible mobile device’s app store.

**CHEVROLET OWNER CENTER**

Get to know your vehicle inside and out with the Chevrolet Owner Center. Check out personalized information, including an online Owner’s Manual and helpful how-to videos, track your service history and warranty status, manage your OnStar and Connected Services vehicle plans, review your current Vehicle Diagnostics report (active service required) and more. Create an account today at my.chevrolet.com.

---

**We recommend always using ACDelco or genuine GM service parts.**
